

Business First 5G mobile and Frontier self-service portal

Affordable and *reliable* 5G connectivity with full control and flexibility

5G is the future of mobile connectivity, offering higher speeds, lower latency, and enhanced security. This makes it ideal for organisations of all sizes who are looking to operate at pace and digitally transform.

TPG Telecom provides affordable 5G with TPG Telecom Business First 5G mobile plans. And, we make it easy for you to manage your plans and devices with our Frontier online, self-service portal.

You get:

5G speeds that can help with higher-quality streaming and more real-time connectivity

Frontier, a self-service portal so you can manage your mobile devices and connectivity.

This means:

- more responsive apps when working remotely using 5G
- increased network capacity keeping more devices connected online at the same time
- ability to share and download documents faster
- decreased time for connected devices to communicate with each other across the network
- an online, self-service portal with password protection
- increased efficiency in setting up and managing mobile devices and connectivity
- less time waiting on hold or waiting for services to be activated
- ability to track requests.

You'll need:

A 5G-approved mobile device

To be in our 5G coverage area

An eligible Business First mobile or Mobile Broadband plan.

It includes:

Shared max speed data across services on the same account (excludes plans with unlimited max speed data)

\$5 roaming so you can use your plan in over 100 countries for \$5 extra per day

The flexibility to choose from month-to-month or plans across 12, 24, and 36 months

Option to purchase new devices and pay for them interest-free over 12, 24, or 36 months.

How to get it:

The fine print:

Business First Plans

Not for commercial or resale purposes. Approved customers with an ACN only. Acceptable Use Policy applies. 12, 24, 36 month plans: Cancellation fees apply (50% of minimum monthly spend x months left on contract).

Data

"Max Speed data" will be used first, thereafter, use data at speeds of up to 2Mbps until your next billing month. Actual speeds you reach will continually vary depending on many factors such as device capabilities, location, network congestion, network coverage and if you are roaming.

\$5 Roaming

Countries subject to change, see website for current list and full details. \$5 Daily Charge is in addition to minimum monthly spend and allows you to use your plan's inclusions in Eligible Countries for \$5 per day. For all plans with a Max Speed data allowance, only Max Speed data allowance can be accessed while \$5 Roaming. Once your Max Speed data allowance is exhausted, additional data will be automatically added at a charge of \$5/GB (\$0.005/MB) ("Additional Roaming Data"). Additional Roaming Data expires at the end of your next billing period, is shareable (excludes plans with unlimited data which do not share data) and can only be used while in \$5 Roaming countries. Max 90 days of use in any calendar year. Opt-out at any time by contacting Customer Care or via the Frontier customer portal. Roaming services subject to network availability.

5G

Vodafone's 5G Network is progressively being rolled out to selected areas in Sydney, Melbourne, Brisbane, Adelaide, Canberra, Perth, Gold Coast, Central Coast, Wollongong and the Sunshine Coast. 5G-approved device required. In non-5G coverage areas, you'll automatically switch to the 4G network. Actual speeds vary due to location and network congestion. Check vodafone.com.au/coverage for coverage and for updates when 5G is coming to your area.
